The device will automatically shut down after completing the upgrade, and the new firmware will run the next time it is powered ON. If no new firmware is available

After the prompt plays, it will return to the previous option

5. Safety Statement 5.1 Precautions

5.1.1 Charging

The recommended charging time is 70 minutes.

5.1.2 Hard Reset

If an anomaly occurs during operation that **prevents it from normal shutdown**, you can perform a reset using the reset hole.

Resetting only forces power-OFF and will not delete any setting information stored in Meteer.

Insert a reset needle into the reset hole on the back of Meteer's head. The display will turn OFF after hearing a "click" sound, indicating a successful reset.

5.1.3 Troubleshooting

[1] Abnormal Freezing

If Meteer experiences freezing, check if there are any incomplete operations or improper operations in the current process, causing an inability to proceed to the next step;

If the operation is correct, try pressing the power button to return to the main menu;

> If unable to return to the main menu, try powering OFF and then restarting;

> > If unable to power OFF, try resetting it using a reset needle.

[2] Unable to Connect to the Network

If Bluetooth devices cannot be found, check if Bluetooth is turned ON on the mobile device.

> If it is turned ON, check if it is being used by another mobile device.

> If the network connection fails, ensure the WLAN connected to the mobile device is 2.4G (5G is not supported);

>>> If it is 2.4G, try switching to a mobile hotspot.

[3] Bluetooth Remote Control Not Working

If the app shows no response when clicking "Bluetooth Remote Control", check if Bluetooth is turned ON on your phone;

 > If Bluetooth is turned ON, and "Bluetooth not connected" is promoted after entering "Bluetooth Remote Control," please confirm that Meteer is in [Bluetooth Mode].
> If Meteer voice prompt says "Bluetooth connected," it may be connected to another mobile device. Please turn OFF Bluetooth on other devices and try again.

[4] Firmware Upgrade Failure

If the firmware upgrade progress bar is stuck, it may be due to an unstable network. Please try to reconnect and upgrade using a mobile hotspot.

> If you cannot return to the main menu, try turning it OFF; if you cannot turn it OFF, please try to perform a hard reset.

[5] No Accompanying Dance

If there are no dance movements while music is playing, it may be due to the volume being too low. Please turn the volume up to maximum.

> If this does not work, the torque may be closed. Quickly double press the power button to open torque.

5.2 Specifications

Size: 230.6 x 154 x 117.5 mm

Weight: 590 g

Material: ABS + PC + Food-grade Silicone

Display: 1.3" 240 x 240 TFT *2pcs

Servos: EM-3A *11pcs

Speakers: 4Ω 2W *2pcs

Microphone: 2- Microphone Array

Audio Processor: Double core RISC 32-bit CPU, 320 MHz

Co-Processor: Cortex M4, 168 MHz Memory: SD NAND: 4 GB

Wi-Fi: Only supports 2.4G

Input Power: USB Type-C; 5V 2A

Charging Time: Approx 70 minutes (25° C) from empty to fully charged

Battery Capacity: 2500 mAh Lithium-ion rechargeable battery

Operating Time: Approx 2 hours of continuous use in a fully charged state * May shorten depending on usage and setting (such as volume)

Operating Temperature: -20 ~ +60° C

5.3 Security Instructions

Avoid Swallowing: Ensure that the product is suitable for the appropriate age group, prevent small parts from being accidentally swallowed by children.

Stable Placement: Place the product on a stable surface to avoid falls or tilting.

Keep Away from Liquids: Avoid placing the product in damp environments to prevent circuit damage.

Regular Inspection: Check regularly for any damage or wear to ensure safe use.

Battery Safety: Follow proper charging procedures to avoid leakage or short circuits.

5.4 Maintenance

Regular Cleaning: Use a soft cloth to clean the product regularly, preventing dust accumulation.

Avoid Chemical Cleaners: Do not use harsh chemical cleaners during cleaning to avoid damaging the surface.

Storage Environment: Store the product in a dry, cool place, away from direct sunlight.

Check Connections: Check regularly for all cables and connection components to ensure there are no loose or damaged parts.

Follow Instructions: Always operate and maintain the product according to the guidelines in the user manual.

5.5 Warranty Policy

We are committed to providing the following warranty services for this product: **Warranty Period:** This product has a warranty period of 90 days from the date of purchase.

Warranty Coverage: The warranty covers defects caused by materials or workmanship. Issues arising from normal use will be repaired or replaced free of charge.

Exclusions from Warranty Coverage:

- Damage caused by misuse, abuse, accidental damage, unauthorized modifications, or repairs.

- Issues resulting from failure to operate or maintain the product according to the user manual.

- Normal wear or tear and aging.

Warranty Process: Please contact the customer service team within the warranty period, providing proof of purchase and a description of the issue.

Cost Information:

- Repairs or replacements that meet warranty conditions will be provided free of charge within the warranty period.

- Services beyond the warranty period or those not meeting warranty conditions will incur relevant charges based on the specific situation.

5.6 Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

CE-RED

This device complies with the EU Radio Equipment CE Certification RED Directive 2014/53/EU basic requirements and other relevant regulations.

EN71

The EUT described above has been tested by us with the listed standards and foundin compliance with the council directive 2009/48/Ec. It is possible to use CE markingto demonstrate the compliance with this directive 2009/48/EC.

CPC CPC

This device complies with the CPC certification for toys in the United States.

RoHS ROHS

Directive(EU)2017/2102.

The Certificate of Compliance is based on a test procedure or an evaluation of the above-mentioned product. This is to certify that the above-mentioned product is in compliance with the ROHS 2.0 Directive -2011/65/EU Annex I (EU)2015/863 as last amended by Directive(EU)2017/2102.
